

## INDEX TO ENROLLMENTS 1837-57

The index is arranged by first letter of a vessel's name, and, thereunder the name of vessels appear in the order in which documents were issued (roughly chronologically). Compound personal names are indexed by the surname rather than by the given name. The large letter in the middle of the column refer to Volumes A through F (see target pages) and the numbers refer to pages in the respective volumes rather than to the number of the document.
